[Portfolio Website](#)

A WordPress Developer who was before an energetic systems engineer, and then transitioned to pursue a career in web development by taking the hard decision to follow his passion. I possess expertise in HTML, CSS, JavaScript, PHP, and MySQL, enabling me to create dynamic and interactive websites tailored to meet client needs.

Experiences

WordPress Freelancer

June 2023 – Currently

As a freelancer with a specialization in WordPress development, I bring a wealth of experience in managing multiple projects concurrently while delivering exceptional results. My journey in the freelancing world has honed my time management skills to perfection, allowing me to navigate through various challenges with ease.

Forward Program

McKinsey & Company, Remote | June – November 2023

Emphasizing essential professional skills relevant and transferable across industries and roles: Communication, Problem-solving, Agile, Design Thinking...

Career Transition & Self Learning

Self-taught Web Developer | June 2022 – Currently

- Transitioned from engineering in Energetic Systems to pursue a career in web development by taking the hard decision to follow my passion;
- Self-taught with proficiency in HTML, CSS, JavaScript, PHP, and MySQL. Leveraged online courses, coding challenges, and hands-on projects for skill development;
- Applied previous engineering experience for effective problem-solving and project management;
- Demonstrates adaptability, perseverance, and commitment to continuous learning.

Projects

Kiosque CAFC

KIOSKCAF

Morocco | Mars 2024

Technologies : WordPress, Elementor, WooCommerce, Dokan, CSS, JavaScript

With an elegant design created with Elementor, Kiosque CAFC delivers a seamless and intuitive shopping experience. By integrating a marketplace with Dokan Pro, this project highlights my ability to meet the specific needs of e-commerce clients.

Roibeasts

ROIBEASTS

USA | February 2024

Technologies : WordPress, Elementor Pro, ACF, HTML, CSS, JavaScript

Powered by WordPress and designed with Elementor Pro. One of the standout features of this website is its intuitive property listings, integrated using Advanced Custom Fields (ACF). The inclusion (with ACF also) of a robust case studies system highlights the agency proven track record of success.

Staraimmo

Morocco | August 2023

Technologies : WordPress, HTML, CSS, JavaScript, Sass, Bootstrap, PHP, Theme Development

I built a new theme from scratch using mainly Bootstrap and Sass, configuring the backend using WordPress PHP Loops, sidebars, pages, and installing plugins such as WPforms.
